

Hello,

**Please also see the purchase page, library orders, or store if you would like to order this Jr High to adult book for your library, personal reading or a school programs. This book matches our Dean and JoJo Programs and is used in Jr. High to adult Anti-bullying and adult enrichment and peace programs. It is also just an excellent book just for reading, even though it is a self help book meeting the needs of individuals and society.**

The DEAN & JOJO STORY is a powerful eco-adventure about the unique bond between myself, Dean Bernal, and a wild dolphin, named JoJo. Our life together is a communion of two worlds coming together, an inward journey of self-transformation which inspires all ages around the globe and changes lives to protect nature. Our iconic story contributes to environment, trust, compassion, understanding, and healing. The table of contents is available here as a PDF downloadable.

See the [www.deanandjojostory.com](http://www.deanandjojostory.com) and click on video gallery to see video excerpts of the book. The film trailer of the quarter century relationship can be viewed. For school teachers and people working with children and families, please also see the Dean and JoJo children and family programs under “programs” on this same web page. A Dean and JoJo children’s book is also available of younger readers and is also used for elementary schools and below.

“What’s the latest on JoJo?”, you ask. JoJo is well and spending time with his girlfriend and his son, MoJo. We are all doing very well.

Enjoy,

Dean Bernal and JoJo the Dolphin
